DETAILED ACTION

Claim Objections

1. Claim 1 is objected to because of the following informalities:

In step(b), "carrier" should be -carriers--.

Appropriate correction is required.

Claim Rejections - 35 USC § 112 (Second Paragraph)

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

- 3. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- A. Claim 1 recites the limitation "said liquid medium" in step(c). There is insufficient antecedent basis for this limitation in the claim.
- B. Claim 4 recites the limitation "the composition" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Double Patenting

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 1-12 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 3-7, 25-26, 29, 36, & 40-41 of <u>U.S. Patent No. 6,627,571 B1</u> (hereinafter Pat '571). Although the conflicting claims are not identical, they are not patentably distinct from each other because:

It appears that the only difference between the claimed method and the method disclosed in Pat '571 is the limitation "said liquid suspension further including at least one agent to alter its viscosity, surface or wetting characteristics and facilitate handling" (see Pat '571, claim 1, step(a)). It is inherent that instantly claimed method would include this limitation due to the open phrase "comprising" in the instant claim 1.

There is no patentable distinction seen between the claimed method and the method as disclosed in Pat '571.

Allowable Subject Matter

6. Claims 13-19 are not being rejected under the art rejection because they contain allowable subject matter. The following is a statement of reasons for the indication of allowable subject matter:

The prior art does not disclose or fairly suggest a method of forming an array of supported catalyst candicate materials requiring a combination of step(a) thru step(f) as specified in claim 13.
